Summary

Business Analytics Professional with around **3 years** of experience at EY, specializing in the **data lifecycle** from ingestion and validation to strategic analysis within enterprise-scale risk consulting environments. Using **Agile** methodologies, utilizing **JIRA** for **User Story development** and **BRD/FRD** creation to align technical execution with organizational KPIs. Proficient in delivering **end-to-end** reporting solutions using **SQL, Excel, Power BI**, and **Python**, along with **AI-integrated workflows** and **AI agent development** to enhance **decision intelligence**. Adept at translating complex datasets into actionable insights for senior stakeholders through structured problem-solving and automated analytics workflows.

Skill Summary

- Tools & Technologies** :Power BI, SQL, Advanced MS Excel, VBA, Python, JIRA, Salesforce, Service Now.
- Skills** : Exploratory Data Analysis (EDA), User Stories and Acceptance Criteria, Cost Optimization, Requirement Gathering (BRD/FRD), Client and stakeholder management, Data Visualization, Statistical analysis, ETL.

Work Experience

BUSINESS ANALYST II | Ernst & Young Global Delivery Services, Pune Jul 23 – Present

Delivered strategic cost optimization and compliance solutions, driving governance and risk reduction through the management of 5+ major software publishers.

- Analyzed high-volume datasets on a monthly cadence for **US and Canada based clients**, leveraging **SQL and Python** to perform data extraction, transformation and analysis, uncovering trends, patterns and anomalies to drive actionable business insights.
- Achieved **37%-40% cost savings**, delivering **\$3M–\$5M in monthly value per account** through SQL driven utilization analysis.
- Spearheaded the roadmap and technical documentation(**BRD/FRD**) for a **custom AI Copilot Agent**, ensuring 100% alignment between stakeholder requirements and AI governance for automated entitlement extraction.
- Developed and managed high-performance **Power BI (DAX) dashboards** and **compliance reports**, leveraging data modeling best practices to provide executive leadership with actionable insights on **cost trends** and **usage patterns**.
- Automated and streamlined reporting workflows using **Python, VBA Macros** and **AI-enabled tooling**, contributing to a **90% reduction in reporting and analysis cycle time**.
- Validated production report trackers and quality checklists prior to client submission, ensuring 100% data accuracy, consistency, and compliance with business reporting and governance standards.

Internship Experience

SOFTWARE DEVELOPER INTERN | KPIT Technologies, Pune Jan 23 – Jun 23

- Developed a responsive single-page application** using Angular and TypeScript, optimizing routing logic and component performance.
- Resolved UI bugs and validation errors**, enhancing application usability and front-end efficiency.
